Telephone: +81 75-692-0251

TOWA CORPORATION announce that at the Board of Directors meeting on March 27, 2025, we resolved to change the Company's reporting segments starting from the fiscal year ending March 2025.

1. Reasons for the change

Our group's reporting segments consist of "Semiconductor Manufacturing Equipment Business," "Fine Plastic Molding Products Business," and "Laser Processing Machine business." In the "Fine Plastic Molding Products Business," we utilize ultra-precision fine process technology we have refined through mold manufacturing to perform plastic products mainly for medical devices. To more clearly express the business content, we have decided to change the name of the "Fine Plastic Molding Products Business" to "Medical Devices Business" in the medium-term management plan (FY2025-FY2027) announced today.

2. Description of the change

Old segments	New segments
Semiconductor Manufacturing Equipment Business	(No change)
Fine Plastic Molded Products Business	Medical Device Business
Laser Processing Machine business	(No change)

(Note) This is a change in name only, and there is no change in the classification of reporting segments.

3. Timing of the change

The new segments apply to financial reports beginning in the fiscal year ending March 2025.
